About a
Health Home

A Health Home is not a physical space. It is a group of health and community agencies that work together to help Medicaid eligible adults with serious and chronic health conditions. We help you obtain additional support services and stay healthy.

Each Health Home member will have a designated Care Coordinator to help them coordinate their physical and/or mental healthcare.

Who Can Join?

Any adult who is eligible for Medicaid and has two chronic diseases, such as diabetes, asthma, heart disease, high blood presure, substance abuse, HIV/AIDS or a serious mental illness may be able to join.

If you're interested in receiving Health Home Care Coordination services, or would like to refer someone, contact our coordinators to find out more information.

What a Care Coordinator Does

» Helps with making and remembering appointments

» Sets up transportation to appointments

» Communicates with your providers

» Answers questions about your healthcare

» Helps with finding new providers, such as primary care doctors

» Advocates for services

» Provides links to local housing resources

» Connects with the Department of Social Services or Social Security Administration

» Links with community agencies for food and clothing

» Provides connections to recovery oriented services

We help individuals achieve safer and more effective care. We work to organize your care activities for high-quality healthcare.
